

## Sweden

Radio Sweden has transmitted a maximum of 90 minutes per day using the facilities of Radio Netherlands and Radio Canada International. Sweden has carried out some additional tests via CBC to Europe but has not had a great response from listeners.

The B07 schedule has Radio Sweden abandoning its DRM service to Europe possibly as a result of the closure of the Flevo transmitter site in the Netherlands. As of A08 Radio Sweden has scheduled just 30 minutes via Sackville in Canada to the NE USA.
